

# THE AGING SERVICES NETWORK – ATLANTA REGION

As the Area Agency on Aging, ARC supports the development of a comprehensive service delivery system for older adults and caregivers. Central to such development, are contractual relationships with local governments and community agencies which implement a coordinated aging program in each of the region's ten counties. These agencies, referred to as County-Based Aging Programs, serve as focal points in the delivery of services to older adults and caregivers in their respective counties. In addition, ARC contracts with community agencies to serve specific population groups with special needs.

Funding supporting this delivery system is received from the Georgia Department of Human Services, including the Older Americans Act, the Social Services Block Grant, the Community Care Services Program (Medicaid Waiver), the Community Based Services Program, U.S. Department of Agriculture and other state monies. Other funding sources include local governments, program income and local match.
